CAREER SUMMARY

B.Tech Computer Science student with a strong foundation in software engineering principles, data structures, and algorithms. Hands-on experience building responsive web applications using JavaScript, and modern backend technologies. Passionate about full-stack development and efficient problem-solving, eager to leverage technical skills in a software development internship.

TECHNICAL SKILLS

Languages : C, Java, Python, JavaScript, SQL

Web : HTML, CSS, PHP

Database : MongoDB, SQL

Tools : Git

Concepts : OOP, DSA, Algorithms

EXPERIENCE

FULL STACK WEB DEVELOPER INTERN | Zephyr Technologies pvt Ltd | Mangalore , Dakshina Kannada May 2026 – June 2026

- Designed and engineered a responsive personal portfolio website utilizing HTML5, CSS3, and JavaScript to showcase technical projects and optimize user experience.
- Developed backend functionality using PHP to handle dynamic data processing, secure user authentication, and seamless server-side rendering for web applications.
- Built and deployed multiple full-stack web applications, focusing on modular code architecture, cross-browser compatibility, and fast page-load performance.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript, GitHub

- Developed a responsive portfolio website featuring Home, About, Skills, Projects, Resume, and Contact sections.
- Designed a modern dark-theme interface using HTML5 and CSS3.
- Added interactive navigation and structured webpage layout using JavaScript.
- Showcased technical skills and projects

Student Management System (Python)

- Developed console-based application to manage student records
- Implemented CRUD operations (Add, Update, Delete, Search)

Library Management System (Java)

- Developed a desktop-based Library Management System using Java and Swing with an interactive GUI
- Implemented core features including add, issue, return, and delete operations for book management

EDUCATION

B.TECH | Computer Science | Srinivas University Institute Of Engineering And Technology

2024 – 2028

CERTIFICATIONS

Fundamental Algorithms: Design and Analysis – MSDE Skill India (NPTEL) Issued: April 2026

Information Technology Specialist (Java) – Certiport (A Pearson VUE Business) Issued: December 2025 | Expires: December 2030

NoSQL – MongoDB – IBM Issued: March 2026

Front End Technologies – IBM Issued: May 2025
